

TT-700 Multi-Product Touchscreen Timer

7-INCH TOUCHSCREEN TIMER

The TT-700 Multi-Product Touchscreen Timer revolutionizes kitchen operations with its intuitive design and powerful features. This cutting-edge timer streamlines workflows, enhances food quality, and improves overall efficiency. Featuring a large, easy-to-read touchscreen with intuitive picture-based programming, the TT-700 minimizes operator errors, overcomes language barriers, and simplifies staff training. With advanced functionalities like “Day Parts” and “Product Build,” the TT-700 empowers your team to consistently deliver high-quality food while maximizing efficiency and minimizing waste. Furthermore, the TT-700 enables wireless connectivity, allowing you to track all your kitchen operations, store alert tasks, and even send “Cook More/Prep More” notifications for seamless coordination and increased productivity.

KorrekProduction™ Ready!

The TT-700 seamlessly integrates with KorrekProduction, the industry-leading kitchen management system, for a fully connected and optimized kitchen.

Enhanced Food Quality & Safety

- Ensures consistent food quality and minimizes the risk of foodborne illness with precise timing of product cook and hold times.

Reduced Costs

- Reduces labor costs by minimizing training time and improving operational efficiency.
- Reduces food waste by ensuring accurate timing and minimizing holding times.

Streamlines Operations

- Stay on brand with custom visual aids, images, and recipes with rapid programming via USB upload.
- Manage the timing of multiple products simultaneously across the kitchen even during peak service periods. Clear audible and visual alerts guide staff, improving efficiency, while minimizing errors.
- Streamlines kitchen operations with intuitive programming and user-friendly interface.

- Overcomes language barriers with its intuitive picture-based programming, simplifying training and improving communication.
- Increases crew efficiency with features like “Day Parts” and “Product Build” that simplify workflow and improve order accuracy.

Increased Productivity

- Optimizes kitchen workflows and minimizes downtime, allowing for increased throughput and improved order fulfillment.

Features & Benefits

User-Friendly

- Large 7 inch touchscreen display with picture-based icons and tri-colored borders ensures “across-the-kitchen” visibility.
- Easy-to-read displays with clear visual cues and user-friendly navigation.

Rapid Programming & Customization

- Upload or download recipes wirelessly or via built-in USB port.
- Upload custom product pictures and build visual aids specific to your brand.
- Create Product Builds and provide staff with visual guidance for product assembly, ensuring consistency and accuracy.
- Program distinct audible alarms with one of five (5) different beep patterns, and four (4) volume levels, making it easy for the crew to quickly identify alarms from workstations.

Reliability & Durability

- Precise timing and holding controls minimize the risk of foodborne illness and ensure consistent food quality.
- Robust construction and durable design ensure long-term performance.

Timing Cycles

- Use the Day Parts feature to group food items according to cooking cycles, i.e. breakfast, lunch, and dinner.
- Stages for unlimited product timing cycles, each with customizable settings including:
 - Stage name
 - Product image
 - Count (up or down)
 - Alarm (on/off)
 - Beep pattern (5 options)
 - Volume level (4 levels)
 - Delta/sum functionality
 - Auto-cancel option
 - Individual stage picture

Flexibility & Precision

- Ability to automatically transfer time(s) from one TT-700 to another timer via wireless pairing or manually transfer active timers.
- Optional wireless-connected Bluetooth Food Probe to ensure your product is done to the correct temperature.

Safety & Compliance

- RoHS compliant to meet all domestic and international standards.

Specifications

Mechanical

- **Chassis:** Plastic
- **Faceplate:** Polyester with back-printed text
- **Maximum ambient temperature:** 158°F / 70°C, 90% max. RH non-condensing
- **Flexible Mounting:** Portrait or Landscape Orientation

Electrical

- **1 Display:** 7in PCAP LCD durable touchscreen
- **Power Input/Voltage:** 90-240V 50/60Hz
- **Power Cord:** Removable 90-degree angle, 6-ft. oil-resistant neoprene, grounded
- **Audio Output:** Piezo 80 dB @ 3 ft. (0.914 Meters)
- Solid state microprocessor design
- **Noise spike protection:** 4000 Volt Minimum (on timers and all properly installed controls)

Shipping Weight

- Approx. 4 lbs. (1.81 Kg)
